

SIGNAL LAMP UNIT LEKA 24

LEKA 24 is a signal lamp unit with red and green light signals.

Connected to the automation system it can be used for indicating the status of the space e.g.

"normal / alert", "free / reserved" or "+ / - pressurized".

Lamps will be activated by applying the supply voltage.

Housing of white plastic (ABS) is made for flush mounting on a standard 60mm junction box.

Surface mounting box is available as an accessory.
